To Whom It May Concern,

Letter of Recommendation for Elias Moussouni

I'm writing this reference to support the application of Elias Moussouni.

Elias was in my Artificial Intelligence class at ECE in during the Autumn 2024 London semester. He was an engaging student with a warm personality and I remember him well.

For his Artificial Intelligence project with me, Elias developed a face recognition system that could recognise the students in his engineering class of over 100 students.

I gather Elias now wants to switch to an apprenticeship, and I support his application. You may contact me at lbalasuriya@omnesintervenant.com for further information.

Yours sincerely,

Dr John Balasuriya
Lecturer of Artificial Intelligence
Omnes Education London School
